

Transform your interior into a contemporary masterpiece with Museum collection from Eijffinger.

Surround yourself with sophisticated materials and sublime colours. From deep burgundy to rich shades of blue and green to shimmering sand and powdery pink. Admire the lavishly painted flowers, birds and butterflies on canvas. Line-drawn flowers on matte paper, plucked from ancient etchings. Enjoy the wonderful textures, from velvety flock to the softest rib wallpaper with a colour gradient. Or choose understated chic with a grand plissé with metallic accents and a refined plain sprinkled with weathered gold dots.

Museum is a journey through time and space, where classical elegance meets contemporary maximalism. With this collection you can be your own curator.
